

SRS- THE GREEN SQUAD

Trees are the earth's endless effort to speak to the listening heaven

SRSians took it as a great opportunity to plant saplings in order to improve the health of the mother earth. Students and teachers planted more than 150 plants and have taken proud and prudent responsibility of taking care of these plants. There is a plan to plant 750 plants in total so as to achieve the target... Each one, plant one. Students have been planting one plant in the school premises on their birthday.

A herbal garden is being made ready with the blossoms of tulsi, aloe vera, gooseberry, lemon and many more. The day was filled with the scents of blissful purity and delight of a noble cause towards humanity, towards nature.
