It helps one to take wise and rational decision well in time because it is in one's moments of decision that one's destiny is shaped.

Career Counseling is a process that focuses on helping one understand one's own strengths and weaknesses, and lets one know what careers they would be best suited for, and how to pursue them. It helps in determining a student's true potential. There are students who are clear as to what they want to become. On the other hand, there are others who are either confused or have no idea about their career preferences.

Keeping these things in mind, regular counseling sessions by experts were conducted in SRS for the students of classes 9<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup> and 12<sup>th</sup>. These helped students in finding out the right career options and the fields that interest them. Students enthusiastically attended these workshops and put their queries before the experts, which were dealt properly by them.
